

BRIDGEWATER SCHOOL

WORSLEY, MANCHESTER

M28 2WQ

DISABILITY AND ACCESSIBILITY POLICY

SCOPE: This policy covers all pupils attending Bridgewater School, including those in EYFS and any using the school's Early and Late Clubs.

This policy has been created to meet the requirements of the Disability Discrimination Act (1995) and the SEN and Disability Act (2010, amended January 2015)

Bridgewater School aims to offer the highest quality of teaching and learning to support all pupils in the pursuit of academic and personal excellence. We have high expectations of all of our pupils and we strive to ensure that each and every pupil can take part in the whole school curriculum. We value the diversity of our school community and appreciate the contribution that pupils with special educational needs (SEN) and/or disabilities can bring to school life. This policy clarifies our position with respect to those with disabilities, including learning difficulties and should be read in association with the school's SEND policy.

We are committed to ensuring that all pupils and prospective pupils are treated equally, as stated in our Equal Opportunities Policy.

We will address this through appropriate actions, including the following:

- Make written materials available in alternative formats, e.g., large print and coloured paper, electronic resources and modified resources as required by pupils' needs.
- Seek advice on appropriate colour schemes to benefit visually impaired pupils, e.g., contrasting colour on edges of steps, handrails in different colours to walls, and consider the best colour and texture for any ramps fitted
- Review the improvement of wheelchair access throughout the School, providing ramps where necessary.

At the same time, we will continue to address the needs of disabled pupils by:

- Applying a continuing programme of staff training on high quality teaching in the classroom
- Ensuring that all future building projects address the needs of people with disabilities with respect to access and safe routes of travel.
- Ensuring provision for pupils requiring reasonable adjustments and special consideration in Public and School examinations
- Producing and applying individual PP's (Pupil Profiles) for pupils identified as having additional learning needs.

However, the School recognises that many features of its buildings, particularly the small classrooms, narrow corridors and flights of steps in the main building, pose particular problems for pupils with impaired mobility.

This Policy and the associated action plan will be reviewed annually.
